

## Risk Assessment Inventory: Skin Breakdown

The following risk factors may be indicators of existing or developing problems. These should be considered by the service coordinator, service provider, and other Team members when assessing and planning for risk mitigation. Referrals for further evaluation by clinicians or the regional center's Clinical Team may be needed to diagnose a specific condition or otherwise address consumer risk. ***This inventory is not intended to take the place of a professional diagnosis conducted according to accepted standards of clinical practice.***
